Andres J. Hernández Lacayo

IT Support Tier 2/3 | Microsoft 365 & Azure Administrator | VoIP & Contact Center Engineer

Nicaragua (UTC-6), Costa Rican national | ajhl1992@gmail.com | github.com/andreshernandez92 | linkedin.com/in/andres-h-970b24162 | Portfolio: andreshernandez92.github.io

Available for night shift, overnight and weekend coverage on US Eastern, Central or Pacific time. Fully remote.

PROFESSIONAL SUMMARY

IT professional with 7 years in IT and a background in contact center operations, currently the final escalation point for a remote, regulated contact center. I administer Microsoft 365 and Azure, engineer VoIP and call routing, remediate security findings, and automate repetitive admin work with Python, PowerShell, VBA and Power Automate. Comfortable working independently overnight: I diagnose across identity, network, telephony and SaaS, schedule changes for low-traffic windows with a rollback plan, and leave clear handoff notes for the next shift.

SKILLS

Support & Operations	Tier 2/3 escalation, incident triage, remote onboarding, runbooks and SOPs, Freshservice, ConnectWise, NinjaOne
Microsoft 365 & Cloud	Entra ID, Exchange Online, shared mailboxes, SharePoint Online, Teams, license audit and cost control, Power Apps, Power Automate, Azure Functions, AWS, Oracle Cloud, Google Workspace
VoIP & Contact Center	Number porting, carrier migration (iPFone to DIDWW), call flow and IVR design, queues and ring groups, VICIdial, cloud dialers, Leadspedia, Ringba
Networking & Security	CCNA, TCP/IP, DNS, VPN, firewalls, SPF/DMARC, HTTPS hardening, attack surface remediation, HIPAA and SOC 2 support, Zero Trust concepts
Automation & Development	Python, PowerShell, Microsoft Graph, VBA, SeleniumVBA, JavaScript, TypeScript, React, SPFx, C#, Google Apps Script, REST APIs, n8n, Zapier
ERP, CRM & Data	Odoo (Helpdesk, user assignment, phone usage), GoHighLevel, SQL (MySQL, SQL Server), Advanced Excel, Looker Studio

PROFESSIONAL EXPERIENCE

Internal IT Support Specialist (Tier 2 / Tier 3)

1BPO Staffing, Remote | Feb 2026 – Present

- Final escalation point for infrastructure, VPN, connectivity and SaaS issues across a fully remote contact center workforce handling healthcare data.
- Cut Microsoft 365 licenses from 50 to 25 by converting accounts used as shared logins into shared mailboxes, giving each user access from their own account.
- Administer Microsoft 365 across two tenants (Entra ID, Exchange Online, SharePoint). Audited Entra ID P1, Power Automate Premium and Windows E3 VDA subscriptions and proposed further consolidation.
- Led a DNS and attack surface audit across six providers. Traced external security scan findings to two root causes, defined HTTPS redirect and Secure cookie hardening on AWS ALB, removed an orphaned legacy server and prepared SPF/DMARC changes.
- Built an 11-macro Excel and SeleniumVBA suite that reads and updates dialer settings in bulk, then used it to roll out a 7-campaign outbound program with agent-level lead assignment and a post-upload audit.
- Designed and tested IVR, overflow and tiered ring-group routing; resolved a VICIdial queue priority issue that was starving an inbound queue.
- Moving a Slack approval app used by about 80 concurrent agents to Azure Functions, with sensitive files removed from Slack within minutes and deleted after three days.
- Built a self-service troubleshooting app (Power Apps plus five Power Automate flows, no Premium licensing) and an IT directory web part with SPFx, React, TypeScript and PnPjs.
- Own the corporate device (BYOD) program aligned to HIPAA and SOC 2, compliance ticketing in Freshservice, and the SOP for lead marketplace API integrations.

Senior Information Technology Support
Freelance, Latin America, Remote | Oct 2024 – Feb 2026

- Deployed and supported Microsoft 365, Google Workspace and AWS environments for small and mid-sized clients.
- Managed Windows Server, email, DNS, VPN and security systems; maintained ConnectWise remote support and NinjaOne backups.
- Automated tasks and CRM pipelines with C#, Python and JavaScript, and wrote technical documentation and troubleshooting guides.

Cloud Support Specialist
Concentrix, Managua | Feb 2024 – Sep 2024

- Supported Microsoft 365 services including Entra ID and Teams; helped clients migrate on-premises services to Microsoft 365 with minimal disruption.
- Performed regular updates and security checks on Microsoft 365 environments.

IT Presales Engineer
TELSSA, Managua | May 2019 – Feb 2024

- Delivered technical demos, trials and proof-of-concept projects for customers and partners; prepared activity reports and bid reviews.
- Programmed and installed software after sale, and built client solutions in C#, Python and JavaScript.

Automation Specialist (Contract, Part Time)
Remote | Jun 2020 – Oct 2020

- Automated data maintenance and one-click reporting in Google Sheets, integrated Sheets with project APIs, and built web scrapers for lead extraction.

Workforce Analyst
Foundever (Sitel), Managua | Oct 2016 – May 2019

- Built ongoing reports from multiple data sources for a contact center operation, improved data collection procedures and worked with leadership on reporting priorities.

SELECTED PROJECTS

- **VoIP carrier migration, iPFone to DIDWW:** supported the porting of the contact center's numbers and built the inbound call flow they route into, tested before and after go-live.
- **Odoo:** set up user assignment and role-based access, phone usage for users, and the Helpdesk module (teams, stages, ticket assignment).
- **n8n lead router:** REST API enrichment, JavaScript transformation, conditional routing and a dedicated error-handling workflow.
- **Power Automate data bridge:** Microsoft Forms and Teams connected to Google Sheets and Looker Studio dashboards.
- **GoHighLevel, Zapier and Apps Script builds:** speed-to-lead nurture, client onboarding bot, and a Google Sheets mini ERP with POS and PDF receipts.
